Span of Horses Mutilated for Revenge

ARE EXCITED BY A DREAM

What a Fortune Teller Said of Boy's Murder.

CLEVELAND, Oct 8.—Beren, a suburb of this city on the Big Four and Lake Shore railroads has developed a case in-volving the lowest order of human bruvolving the lowest order of human bru-tality, mystery and supernatural color-ing. Three farmers living in the neigh-borhood combined in the purchase of a mowing machine and agreed that no one should be allowed to borrow it. A man named Brandt living in the neighbor-bood made an attempt to get the ma-chine but met with failure after having received a promise that he would be received a promise that he would be allowed to use it. A quarrel ensued be received a promise that he would be allowed to use it. A quarrel ensued between the three partners and Brandt and threats of revenge were exchanged. A few days ago one of the owners of the machine, on going to his barn in the morning discovered that a valuable team of horses had been mutilated in a horrible manner. Nailed to the stable door was the tongue of one of them, which had been cut ont as far back as possible. By its side was the tail of the other horse, which had been cut off close to the body. Suspicion at once fell upon Brandt. A son of the owner of the two horses claimed to have evidence sufficient to convict Brandt, but since the day following the mutilation of the horses he has been mysteriously missing. The next night after his disappearance his mother dreamed that Brandt had appeared at her bedside and informed her that he had murdered her son and buried him in a wheat field. Upon relating this dream to the members of her family an older son claimed to have had precisely the same dream. Excitement grew until yesterday when another member of the family who lives at a distance and who knew nothing of the case whatever wrote home that in a spirit of adventure he had visited a fortune teller who informed him that his brother had been murdered and buried tune teller who informed him that his brother had been murdered and buried in a wheatfield. This letter, so thoroughly coincidental with the dreams of the mother and son, has thrown the town of Beres and the surrounding country into a fever of excitement. An organ-ized search for the missing man is being

Manuel Essembler, senator from the same state, was assessed nated at his house in Tapachula by shots fired from the street, twelve of which projectiles indged in his look. Tapachula toing almost on the Contemaian frontier, it is probable that the assessin escaped in that direction. The cause of the shooting is not exactly known but it is thought that a servent dismissed by the general today, perhaps, had something to do with it.
